

ONE POLISH THREE PADS

EASY AS 1, 2, 3!

NEW
MACHINE
GLAZE

Liquid Ice Extra-Cut

Creating a high gloss finish is now easy as 1, 2, 3. Just squirt some Liquid Ice Extra-Cut and start with Super Cut Wool Pad Step 1 to remove all sand scratches. Switch to Step 2 Blue Foam Cutting Pad to remove any swirl marks. Switch to Step 3 White Foam Finishing Pad to produce a high gloss finish and deliver a quality paint job to a satisfied customer. Liquid Ice allows you to finish the job faster so you can get the job done right the first time, every time with Norton.

Work Smarter. Finish Faster.

**LIQUIDICE**

NORTON

LIQUID ICE EXTRA-CUT

One polish, three pads – easy and simple

No swirl marks

Incredible high gloss

Water soluble – easy to work with and to clean up

EASY AS 1, 2, 3

STEP 1

Use the Super Cut Wool Pad. (Spur wool pad before starting to condition and remove loose yarns or dry polish). Apply Liquid Ice Extra-Cut to the work area. To prevent slinging, spread over the work area with the polishing pad before starting machine. Buff (with pad slightly on edge) using medium pressure at 1000-1200 rpm. Remove all sand scratches with the wool pad before moving to pad #2.

STEP 2

Use the Blue Cutting Foam Pad. Repeat step 1 except turn the buffer rpm up to 1500. Remove all swirl marks before moving to pad #3.

STEP 3

Use the White Finishing Foam. Use the same procedure at 1500 rpm to remove the finest swirl marks and produce a high gloss finish.

BEST PRACTICE FOR DARK VEHICLES

Use **Ultra-Fine Machine Glaze** for a totally swirl free, high-gloss finish where the absolute best finish is required. Use on its own for fine scratch removal, or as Step 3 in place of Liquid Ice Extra-Cut. Be sure to keep a thin wet film on the surface for several passes.

Clean-Up and Protection

Remove all buffing residue and add paint protection with Liquid Ice Clean-Up/Detailer Spray #42082. Wipe clean with a Blue Magnet micro fiber cloth #04402. Be sure to remove the tag from the cloth before use.

Back-Up Pad Mounting System

The Liquid Ice Back-Up pad has a special centering device to ensure perfect balance.

TECHtip

Fold the pad in half to easily align the button with the hole then pat the pad securely into place.

BEST
PRACTICE

NORTON

Liquid Ice Extra-Cut

Water soluble Liquid Ice Extra-Cut is easy to use and easy to clean up. Liquid Ice Extra-Cut is engineered to be used with a selection of 3 pads, depending on the finish required.

DESCRIPTION	636425-	PKG	PKG/CASE

LIQUID ICE EXTRA-CUT AND MACHINE GLAZE

Remove scratches with a single product. Rather than changing compounds and pads to achieve a high gloss finish, you only need to change the pad.

Liquid Ice Extra-Cut matches the cut of the pad to the work.

Remove imperfections effortlessly for a quality job with a finish that shines

EASY AS 1, 2, 3!

THE NORTON NO-RISK TEST POLICY

NORTON is so confident of the superior performance of its automotive aftermarket refinishing products, as recommended for specific applications, that we invite in-shop tests against any other brand of abrasive, masking, buffing or structural adhesive products on the market. TO MAKE IT AS EASY as possible for users to make their own judgment of the time, labor and money savings advantages of Norton products, and to assure users that they have absolutely nothing to lose and everything to gain by conducting an in-shop test.

- 1 The test will be conducted in the user's own shop, on their machines and their work pieces.
- 2 If the Norton product tested proves completely unsatisfactory, the user will receive a full refund.
- 3 If the Norton product tested performs at a lower level than the product presently being used, the user will receive an adjustment to make up the difference in performance.
- 4 THE USER IS THE FINAL JUDGE OF PERFORMANCE
